🌐 KCDasanayaka

🔄 KCDasanayaka

📍 Colombo, Sri Lanka

Profile

UI/UX Engineer with hands-on industry experience in UX research, wireframing, prototyping, UI design, and UI quality assurance for web and digital products. Skilled in translating user and business requirements into intuitive and visually consistent interfaces using Figma. Strong frontend development foundation in React and the MERN stack enables effective collaboration with developers and accurate design implementation.

Professional Experience

UI/UX Designer Intern

Feb 2025–Aug 2025

LI Studios (Limitless Ideation), Moratuwa, Sri Lanka

- Conducted UX research, user flows, wireframing, prototyping, and UI design for client web and digital products using Figma.
- Collaborated with clients, developers, and cross-functional teams to translate requirements into intuitive, high-fidelity interfaces.
- Performed UI/UX quality assurance after development and contributed to design documentation, technology research, and knowledge-sharing sessions.

Freelance UI/UX & Creative Designer

2022 – Present

- Designed user-centered interfaces, and high-fidelity UI experiences for digital products and clients.
- Created product, graphic, branding, and video content for digital and promotional projects.
